

Practical Guide for
Implementing an Energy Management System

2. Energy Policy sample

As an energy intense manufacturer of xxxxx, XYZ Company strives to reduce its energy consumption and costs and promote the long-term environmental and economic sustainability of its operations. We are committed to:

Reduce energy intensity by 25% in 10 years in our manufacturing and distribution operations

Ensure continual improvement in our energy performance

Deploy information and resources to achieve our objectives and targets

Uphold legal and other requirements regarding energy

Consider energy performance improvements in design and modification of our facilities, equipment, systems and processes

Effectively procure and utilize energy-efficient products and services

Your Responsibilities:

- Understand and conform to the XYZ energy policy and procedures as applicable to your role.
- Suggest improvements for reducing or eliminating energy use in our activities
- Support our efforts to improve our overall sustainability efforts.
